HABA MEGA UNDERGROUND WASTE COMPACTORS

The Invisible Giant

HABA MEGA waste compactor is a space-saving and stylish waste system for all locations in which environment poses challenges to the designer, like city centres, hospitals, residential areas

Underground compactors HABA MEGA

Dubai (UAE), Stockholm (Sweden), Zurich, Aarau, Kilsberg, Adelheid (Switzerland), Bergen (Norway), Odense (Denmark), Helsinki, Vaasa, Forssa, Tampere, Turku, Rauma (Finland), Moscow (Russia), Peking (China), Essen (Germany)

Over 110 installation sites

HABA MEGA UNDERGROUND WASTE COMPACTORS

Huge capacity underground

System has only a small bin on the ground, but the assembly underground consist of two units: a container with a metal frame and a compactor. One unit can storage over 120 m³ uncompacted waste. The system is well suited to all types of waste and is an efficient solution for recycling.

HABA MEGA UNDERGROUND WASTE COMPACTORS

**One 20m³ HABA MEGA can
storage same waste volume than
180 x 660 l wheelie bins!**

Wheelie bins

New Innovation ! SOLARPRESS

HABA

Solar-powered compactor can replace 50-60 pcs 1000 L wheelie bins!

HABA SolarPress operates completely without the need for electrical power, cause installation of a battery system and solar panels on the top of the compactor.
